BTW Driving Skills Report Card

DHS Driver's Education

Driving is a privilege, NOT a right!

› Student-Driver Name: _____

› Date: _____

› Driving Quarter: 1st 2nd 3rd 4th

› Illinois State Test Grade: A B C

You are currently half-way through your required **SIX** hours of supervised behind-the-wheel instruction. This report card, which will emphasize your personal strengths and weaknesses as a driver, will be a good indicator for how you have performed up to this point in the quarter. Please **DO NOT** stress if you receive a score that is "average" or "below average." You still have two hours remaining to practice and improve your skills.

Below is a description of each skill you have been taught, and your progress thus far:

- 1 = "**ABOVE Average**" – SD consistently completes skill well without the support from the instructor.
- 2 = "**Average**" – SD performs skill well, but still needs support from the instructor to perform skill.
- 3 = "**BELOW Average**" – SD requires constant support to perform skill from the instructor.
